Course Overview
The purpose of this course is to develop the knowledge and skills necessary for effective leadership within organizations. In this course, students will be exposed to structural, philosophical, and human elements of organizations; how to interpret them and apply strategies for effective organizational leadership. As a result of completing this course successfully, students will:

- Understand structural, philosophical, and human elements of organizations.
- Understand contemporary organizational issues and how to address them effectively through organizational leadership.
- Enhance written and oral communication skills through writing, class discussion, and presentations.

This course will heavily involve the application of course information to a real organizational setting that the student is an active part of-work, club, etc. Students will be challenged to analyze and apply information learned from class sessions and readings to their organizational experience.

Required Course Materials
- Rath, T. (2007). Strengthsfinder 2.0. New York: Gallup Press. (If you have not taken StrengthsQuest or StrengthsFinder or do not know your top 5 strengths)

General Course Policies
- You are expected to turn off your cell phone and ipod during class.
- Laptops may only be used with permission of the instructor at times that warrant laptop use (ex. activity researching information online or to take notes during a lecture). Laptops must be off and closed during class discussions, presentations from students, and activities not needing a laptop.
- Information contained in the course syllabus, other than the grade and absence policies, may be subject to change with reasonable advance notice, as deemed appropriate by the instructor.

Participation
A key learning tool for this class is participation in discussions and exercises. It is important that you come prepared to class to actively participate in all class discussions and exercises. Active participation is a personal responsibility that is inherent in leadership and is paramount to your success in this course.
- Students who are absent are expected to be responsible for materials covered during their absence, and are required to complete and submit course assignments either in person or via e-mail on or before 2:00pm on their due date.
• Students who have class on a religious holiday and need to miss class on the holiday to observe this holiday may do so if they notify the instructor at least 2 weeks in advance of the absence.
• Absences pre-approved by the UA Dean of Students (or Dean’s designee) will be honored.
• Attendance will be kept for this class. 1 absence = 1 hour and 15 minutes. Attendance will be prorated each class session to account for students coming late or leaving early. Students who are absent from class more than 3 hours and 15 minutes over the course of the semester will have a 4 point deduction for every 15 minute (or partial 15 minute) time block missed from class beyond the 4 hours and 30 minutes.

**Special Needs**
If you anticipate issues related to the format or requirements of this course, please meet with me. I would like us to discuss ways to ensure your full participation in the course. If you determine that formal, disability-related accommodations are necessary, it is very important that you be registered with Disability Resources (621-3268; drc.arizona.edu) and notify me of your eligibility for reasonable accommodations. We can then plan how best to coordinate your accommodations.

**Academic Dishonesty**
The University of Arizona observes a Code of Academic Integrity, which demands that all material submitted by a student is the student’s own work. This also pertains to a student doing his/her own work on all tests and quizzes. Failure to comply with this code will result in disciplinary sanctions. A complete copy of this code is available from the Office of the Dean of Students or the Committee on Academic Integrity.

**Threatening Behavior**
Threatening Behavior is prohibited. “Threatening behavior” means any statement, communication, conduct or gesture, including those in written form, directed toward any member of the University community that causes a reasonable apprehension of physical harm to a person or property. A student can be guilty of threatening behavior even if the person who is the object of the threat does not observe or receive it, so long as a reasonable person would interpret the maker’s statement, communication, conduct or gesture as a serious expression of intent to physically harm.

**Written Work**
Because the ability to communicate through writing is an important component of college success, it is imperative that each student be able to use the resources available to be able to submit well-written work.

- **Format:** The Organizational Culture Paper is to be written in proper APA format, including title page and references and should be typed using 12 point Times New Roman or Arial fonts, double spacing, and one inch margins. Assignment lengths indicated below refer to the length of the text of the papers and are exclusive of title and reference pages. The instructor reserves the right to request an electronic copy of any assignments to check formatting, so you are expected to save your work through the end of the course. Assignments not meeting these formatting guidelines will be lowered by one full letter grade (10% of the total points possible).

- **Research:** The Organizational Culture Paper is a research and application paper. You will need to provide research-based support for all of your arguments and application examples in this assignment. The research you include should be from legitimate sources. No Wikipedia.

- **In Text and Works Cited References:** Information you write about in your assignments needing references (including but not limited to quotes, statistics, research findings, claims, etc.) must have in text citations in addition to a reference in the Works Cited.

- **Spelling and Grammar:** You are responsible for ensuring your assignments are free of spelling and grammatical errors. Assignments will be marked down according to each assignment rubric for spelling/grammar errors.

- **Writing Assistance:** Students who need assistance with writing and/or APA are encouraged to utilize the Writing Center. Information can be found at [http://thinktank.arizona.edu/programs/thinktank/services/writing](http://thinktank.arizona.edu/programs/thinktank/services/writing).
Assignments

- Assignments are due on the date listed on the syllabus by 2:00pm.
- Students who will be missing class on a day when an assignment is due are required to submit the assignment on or before 2:00pm on the due date.
- Electronic copies of assignments will only be accepted for students who will be absent from class on the day the assignment is due. Students attending class during which an assignment is due must turn in a printed version of the assignment.
- The Organizational Culture Paper will be accepted with a penalty of 10% for each day the assignment is late. For the purposes of late assignments, each day is 2:01pm-2:00pm the following day. This assignment will only be accepted up to 3 days late (72 hours from the start of the class session in which the assignment was due). Analytical Frameworks will not be accepted late and the Organizational Fad Presentation cannot be made up.

Analytical Framework
Each class for which there is assigned reading, you are to type responses to the prompts in the analytical Framework below using your own words (unless it is a definition). You are to bring a print out of your typed Analytical framework to class and use it to guide your contribution to the class discussion and activities for the day. Each class session will begin with Analytical Framework pairings in which you will talk through your analytical framework with your partner to make sure you understand the concepts before we begin the large class discussion. No untyped or late analytical frameworks will be accepted. Analytical Framework components include: BRING A COPY OF THE READING(S) TO CLASS THE DAY THEY ARE DUE (PAPER OR ON COMPUTER)

- Main concepts and research findings (6 points)
- Application to your organization (4 points)

10 points each
Due each class session in which one or more readings are assigned
